San Raffaele**

Gruppo San Donato

Milano, 15 May 2019

The Infections and Cystic Fibrosis Unit at the San Raffaele Scientific Institute (Milano, Italy) is seeking a highly motivated candidate with a degree in Biology, Biotechnology or related disciplines, interested in basic and translational research.

We offer a research fellowship to a newly graduated or young graduated fellow. She/he will assist a post-doc fellow in a project recently funded by the Italian Cystic Fibrosis Research Foundation that aims to define whether new approved CFTR-modulators have an impact on infection in cystic fibrosis lung disease.

The candidate will perform in vitro assays on bacterial and cellular cultures, and in vivo experiments. Laboratory experience working with cell and/or bacterial cultures would be preferable. The ability to handle mice will be considered a plus.

Link to the project: <https://www.fibrosicistica.ricerca.it/progetto/ffc152018-effetti-non-cftr-dipendenti-dei-modulatori-di-cftr-in-modelli-preclinici-di-infezione-polmonare/>

Applications with a CV and at least one contact for references should be sent to [cigana.cristina@hsr.it](mailto:cigana.cristina@hsr.it) or [bragonzi.alessandra@hsr.it](mailto:bragonzi.alessandra@hsr.it)
